

FOR MARKETING AND WEB AGENCIES

Your clients' sites and their whole team's email, files and calendar, with one partner.

Flat prices per domain, and a live report of what we checked.

IT Tick

WHY AGENCIES CHOOSE IT TICK

Fewer bills, fewer panels, fewer surprises

Your clients blame you when a site goes down, mail lands in spam or a domain expires. We look after the hosting and email so you can look after the client.

01

More than space and a login

Every plan includes the domain, free SSL, daily backups and a weekly security check. A cheap host gives you space; we tell you what we checked.

02

One price for the whole team

Business Suite is one flat price per domain, with unlimited mailboxes, each with its own drive, calendar and contacts. Adding a person costs nothing.

03

The report is in the plan

A reporting tool is another bill. Your client's dashboard shows a live report of what we checked, at no extra cost.

What the live report shows

Each domain gets its own status card in the dashboard, so "is my client's site OK?" has a plain answer.

- Site online and SSL days left
- Domain expiry and lock
- Email records (SPF, DKIM, DMARC)
- Last backup
- Weekly security check

> **Your client's site and their whole team's email, files and calendar with one partner, flat prices per domain, and a live report of what we checked.**

WORKING TOGETHER

How agencies work with us

1 **Tell us about your clients**
Write to us from it-tick.com/partners. We agree the partner terms with you directly.

2 **We move them for you**
Site, mail, domain and DNS moved and tested before we call it done (Move to IT Tick, free for 1 site with a hosting plan).

3 **They get to work, you get the answer**
Your client's team gets email, drive and calendar, and the dashboard shows what we checked.

What we promise

- 15-day money-back guarantee on hosting (the hosting fee)
- 99.9% uptime guarantee
- Daily backups on every plan, restored on request
- Standard support: a person replies within 24 hours; faster with Premium ($49 a month)
